

PERSONAL DATA - INFORMED CONSENT FORM

1

You are being asked to participate in scientific research. You can stop your participation at any time (in writing or verbally), without giving a reason. You will find more information about the research below. Lastly, do not hesitate to contact the researcher if something is not clear.

Description of the research

Title: Serendipity in music recommendation

Researchers: xx

Supervisor: xx

Research group or department: xx

Purpose of the research: This study investigates how people experience music recommendations. In the study, you will be asked to listen to several songs, and answer questions about your experience.

T h e g o a l o f t h e r e s e a r c h i s t o b e t t e r
u n d e r s t a n d p e o p l e ' s l i s t e n i n g e x p e r i e n c e s .

Practical conduct: User experiment

Course of experiment: The study will take roughly 1 hour. First, you will be informed about the study, get the opportunity to ask questions, and be asked to sign this informed consent if you agree to participate to this study. Second, we will ask you some personal information. Third, we start the experiment. Here, you will be asked to evaluate your experience of listening to two music playlists.

1. Responsible data controller

xx

1. Description of risks and benefits

Your participation will not involve any risks.

Your participation will involve the following benefits: listening to a (hopefully) enjoyable playlist.

1. Confidentiality

We will keep the collected data confidential and respect the privacy legislation, including the European General Data Protection Regulation (GDPR).

1. Data – _Purpose – _Retention Time – _Transfer

For this research, we will collect the following personal data: musical expertise, openness to experience, age, gender, education level

We will only process your data for the purpose of scientific research.

Your data may be reused for scientific research in the public interest, provided that protective measures are taken.

1. Security

The storage of your data offers a high level of protection, in accordance with the guidelines of the xx

Your data will not be stored on a PC, external hard drive, or USB stick unless they are encrypted.

We will pseudonymize your data as soon as possible. This means that data that can directly identify you, such as your name and email address, will be replaced by codes. A key is needed to convert the codes back to the original data. Only the researchers and the supervisor have access to this key.

PERSONAL DATA - INFORMED CONSENT FORM

2

1. Your rights

You have the right to access, correct, and delete your data, to request information about the processing and a copy of your data, to restrict the way we handle your data, and to ask us to transfer your data to third parties.

You always have the right to withdraw your consent to process your data, without having to give a reason, except when the data have already been published.

Please note that the exercise of your rights may be limited when the data are anonymous.

The exercise of your rights may be restricted if it would seriously hinder our research. For example, if you withdraw your consent, this may not affect the results arising from the processing of your data before the withdrawal.

1. Contact

If you have questions, or if you want to exercise your rights, you can contact xxx or the data protection officer of the xx

1. Complaints

If you wish to complain about the way we handle your data, you can contact the researchers, the supervisor or the DPO (cf. above).

Or you can file a complaint with the data protection authority:

xxx
